CAREER PROFILE

Aspiring Data Analyst with a foundation in Python, MySQL, data preprocessing, and database fundamentals. Hands-on experience gained through academic projects and a Full Stack Developer internship, including organizing and processing data, feature extraction, model evaluation, and database operations. Eager to apply analytical thinking, attention to detail, and problem-solving skills in a Junior Data Analyst role.

DATA ANALYST SKILLS

SQL / Database: MySQL fundamentals, CRUD operations, database schema design

Programming & Data: Python, Pandas, NumPy, data preprocessing, feature extraction

Data Analysis: Dataset preparation, data validation, pattern identification, model evaluation

Visualization / Reporting: Data presentation and reporting through project outputs

Web / Tools: Flask, HTML5, CSS3, JavaScript fundamentals

Soft Skills: Analytical thinking, problem-solving, attention to detail, communication, teamwork

INTERNSHIP EXPERIENCE

Full Stack Developer Intern — Nurture Infotech

Jul 2025 – Aug 2025

- Worked across front-end and back-end development, gaining practical exposure to application and database workflows.
- Contributed to building and maintaining web application features under the guidance of senior developers.
- Applied HTML5, CSS3, JavaScript, backend concepts, and database fundamentals to implement application features.

PROJECTS

Fresh Mart Sales & Business Performance Dashboard-Excel

- Created an interactive Excel dashboard to analyze sales and business performance using Pivot Tables, charts, formulas, and data-cleaning techniques.
- Presented key business insights through visual reports and dashboard metrics.

Hospital Management System - SQL / MySQL

- Developed a SQL-based database project for managing hospital-related information.
- Used SQL queries, filtering, grouping, joins, and aggregate functions to retrieve and analyze data; worked with relational tables to organize and manage hospital data efficiently.

Manufacturing Industry Analytics Dashboard - Power BI | Nova Tech

- Created an interactive Power BI dashboard to analyze manufacturing industry data using data transformation, visualizations, KPIs, and interactive filters.
- Designed reports to identify trends and support data-driven decision-making.

Personal Portfolio Website - HTML5, CSS3, JavaScript

- Designed and built a personal portfolio website from scratch to showcase skills, projects, and resume.
- Structured and tested the website across browsers and screen sizes to ensure consistent functionality.

EDUCATION

Master of Computer Applications (MCA) K.S.R. College of Engineering, Tiruchengode

2026

CGPA: 6.9

B.Sc. Information Technology — Gobi Arts and Science College, Gobi

2024

CGPA: 4.9

Higher Secondary (12th Grade)

Percentage: 78%

CERTIFICATES

- UI/UX Design — User Research, Wireframing, Prototyping, User-Centered Design, Interface Design
- Full Stack Web Development — Front-End Development, Back-End Development, Representational State Transfer Application Programming Interfaces, and Database Management
